

S-38.115 Signaling Protocols

Exercise 2, spring 2004

LME Computer Aided Education software
of ISDN and signalling (CCS#7)

Equipment

- Two clearly marked PCs in room G212
 - Both contain the same CAE software
 - Two headphones for each computer
- CAE workbooks nearby the computers
- See the folder for important CAE modules
- Instructions on how to use the computers and the software are attached to the computers

Time reservations

- Starting next week (week 7)
- The lists are on the door of room G212
- Individual lists for both computers
- Reserve times only in pairs
 - Not alone – there are 150 students in the course
 - Not in a bigger group – only two persons can use one computer at the same time

Practical issues

- If there is a problem with the computer, try rebooting it
 - Inform the assistant, if the computer totally refuses to co-operate
- Lock the door when you leave the room
- If the door is locked when it is your turn, see the instructions on the door

Exercise questions

- 100 selection questions based on the software
- 70% correctly solved questions -> +1 point
- Questions are available on the course home page
- CAE is pair work, but the exercise is individual work! (individual answers)
- Deadline: Wednesday 28th April, at 13.45
- Correct answers will be presented in the exercise lecture on 28th April
 - Answers will not be published on the web

How to return the exercise

- Use the answer sheet (Excel) available on the web
- Remember to write your name and student number to the answer sheet
- Name the file "<your student nr>_exercise2.xls" (e.g. 12345A_exercise2.xls)
- Send the file by email to s38115@netlab.hut.fi with the subject "Exercise 2"
- *Note*: this is the ONLY acceptable way to return the exercise!

How to proceed..

1. Find a pair
2. Reserve a time
3. Study the software with your pair
 - Use also the software workbooks
 - Take notes – it may help you in the exam
 - Answer the exercise questions
4. Mark your answers to the answer sheet
5. Submit the answer sheet following the instructions on the course home page
