

## **KUTSU**

kuulemaan julkista esitelmää, jonka  
Teknillisen korkeakoulun  
radiotietoliikennetekniikan professori

**Jyri Hämäläinen**

ja

ohjelmistotuotannon professori

**Tomi Männistö**

pitävät virkaanastujaisissaan  
kesäkuun 3. päivänä 2008 kello 14.15  
Teknillisen korkeakoulun  
TUAS-talon luentosalissa TU2,  
Otaniementie 17, Otaniemi

Virkaanastujaisesitelmät pidetään kesäkuun 3. päivänä 2008 kello 14.15 Teknillisen korkeakoulun TUAS-talon luentosalissa TU2

**professori Jyri Hämäläinen: Radiotietoliikenne: pieniin pän?**

**professori Tomi Männistö: Todellisuus vaivaa paisuvaa bittitaikinaa**

Esitelmiä kuulemaan kutsun kunnioittavasti Teknillisen korkeakoulun opettajat, muun henkilökunnan ja opiskelijat sekä tieteiden harjoittajat, suosijat ja ystävät.

Rehtori Matti Pursula

**Jyri Hämäläinen**  
radiotietoliikennetekniikan professori

Teknillisen korkeakoulun rehtori päätti 11.10.2006, että Sähkö- ja tietoliikennetekniikan osastolle tietoliikennelaboratorion vastuualueelle sijoitetun professorin viran nro 164 opetusala on radiotietoliikennetekniikka. Opetusala täsmennettiin seuraavasti: "radiotietoliikennejärjestelmät, erityisesti radiolinkin mitoitus, verkon suunnittelu ja järjestelmän optimointi".

Virkaa hakivat 20.11.2006 päätyneen määräajan kuluessa FT Jyri Hämäläinen, TkT Jari Iinatti, TkT Jaana Laiho, TkT Kimmo Raivio, PhD Mansoor Shafi, TkT David Soldani, TkT Jarkko Vuori. Hakemuksensa peruuuttivat TkT Jari Iinatti ja PhD Mansoor Shafi.

Sähkö- ja tietoliikennetekniikan osaston tieteellinen neuvosto pyysi asiantuntijalausunnot viran hakijoiden kelpoisuudesta ja ansioista seuraavilta: professori Seong-Lyun Kim (School of Electrical and Electronic Engineering, Yonsei University), apulaisprofessori Silvia Ruiz Boqué (Department of Signal Theory and Communications, Technical University of Catalonia) ja professori Adam Wolisz (Faculty of EE and CS, Technical University of Berlin).

Sähkö-ja tietoliikennetekniikan osaston tieteellinen neuvosto teki kokouksessaan 3.9.2007 virkaehdotuksen, jossa se asetti ensimmäiselle ehdokassijalle TkT Jaana Laihon, toiselle ehdokassijalle FT Jyri Hämäläisen ja kolmannelle ehdokassijalle TkT David Soldanin. TkT Jaana Laiho peruutti hakemuksensa 17.10.2007.

Korkeakoulun hallitus nimitti kokouksessaan 22.10.2007 FT Jyri Hämäläisen radiotietoliikennetekniikan professorin virkaan nro 164 viiden vuoden määräajaksi 1.1.2008 lukien.

# CURRICULUM VITAE

Name: Jyri Kalervo Hämäläinen

Date of birth: 24.3.1965

Nationality: Finnish

## Degrees

- Doctor of Philosophy, Communications, Helsinki University of Technology, 2007
- Doctor of Philosophy, Applied Mathematics, University of Oulu, 1998
- Licentiate of Philosophy, Applied Mathematics, University of Oulu, 1995
- Candidate of Philosophy (=MSc), Mathematics, University of Oulu, 1992
- Grade in teaching, University of Oulu, 1999

## Professional appointments

- Professor in Radio Communications Engineering, Helsinki University of Technology, 1.1.2008-
- Adjunct Professor (Docent), University of Oulu, Faculty of Technology, Division of Mathematics, 2006-
- Program Manager, Senior Specialist, Specialist, Nokia Siemens Networks, 1999-2007
- Senior Research Specialist (part-time), Helsinki University of Technology, Signal Processing Laboratory, 2002-2005
- Senior Lecturer, Senior Assistant, Assistant, Lecturer (mathematics and applied mathematics), in University of Oulu, Faculty of Science, Department of Mathematical Sciences, 1995-1999 and in Faculty of Technology, Division of Mathematics, 1990-1995

## Working experience

- 2008: Professor in Helsinki University of Technology
- 1999-2007: Various research and manager activities in Nokia Siemens Networks
  - Systems research on GSM/EDGE, WCDMA, HSDPA and LTE
  - Technology investigations and scouting related to WiMAX, mesh networks, cognitive radios
  - Leader of spearhead projects in LTE standardization and long term research, related topics: Cellular network topology extensions, new spectrum technologies, mesh networks.
  - Steering of Nokia/NSN internal and external research projects funded by Nokia Siemens Networks.
  - Leader of the Quality Evaluation Group (QEG) of EU WINNER II (Wireless World Initiative New Radio) project. The QEG implements proactive quality assurance within the project as an independent body.

- 1990-95: Division of Mathematics, University of Oulu. Teaching and research activities that lead to Licentiate of Philosophy degree.
- 1995-1999: Department of Mathematical Sciences, University of Oulu. Teaching and research that lead to Doctor of Philosophy degree in Applied Mathematics. Supervision of MSc and Licentiate students.
- Research work on academic forums have been concentrating on
  - Radio resource management
    - Physical layer scheduling, control structures in wireless systems
  - Link level performance and physical layer procedures
    - Multi-antenna processing
  - Network topology extensions
    - Radio relays, local area systems
  - Channel modelling
    - Geometrical models, polarization
  - Mathematics
    - Stability and convergence analysis for numerical solutions of pseudodifferential operators, theory of function spaces in general, anisotropic Sobolev spaces.

## Teaching

- Courses: Cellular Network Planning and Optimization, Numerical Analysis, Initial and Boundary Value Problems, Optimization I, Optimization II, Complex Analysis, Numerical Methods, Statistics for Engineers, Basic Methods of Mathematics I, Basic Methods of Mathematics II, Analysis I, Analysis II, Linear Algebra, Differential Equations I, Differential Equations II.
- Supplementary courses for high school teachers, Nokia internal education.
- Theses supervision/co-supervision: 2 Licentiate theses, round 10 Master's theses, 1 PhD thesis pre-examination.

## Other

- Wide experience in cellular/broadband wireless radio access systems: GSM/EDGE, WCDMA, HSPA, WiMAX, LTE, complementary access systems.
- Practical knowledge on systems and devices.
- Theoretical knowledge on wireless communications and strong mathematical toolbox.
- Practical leading experience and manager training from industry.
- 10 year experience on teaching in university and some experience on teaching in secondary and upper secondary school.

### Granted patents

*Remark.* Patents and applications form 'families'. Only one member from each family is mentioned. US patents are preferred since the given information can be easily verified from US patent office pages.

J. Hämäläinen, K. Niemelä, R. Wichman: "Transceiver Method in a Radio System and a Radio System", US Patent No 7257424, August 2007.

J. Hämäläinen, J. Hulkonen, T. Korpi, T. Kähkönen, M. Säily: "Antenna down-tilting", US Patent No. 7242362, July 2007.

J. Hämäläinen, R. Wichman: "Communication System and Method Using Transmit Diversity", US Patent No. 7224943, May 2007.

J. Hämäläinen, R. Wichman: "Transmission Diversity with Two Cross-Polarized Antenna Arrays", US Patent No. 7136627, November 2006.

J. Hämäläinen, R. Wichman: "Apparatus, and Associated Method, for Space-Time Encoding, and Decoding, Data at a Selected Code Rate", US Patent No. 6999472, February 2006.

K. Kuchi, J. Hämäläinen: "Space-Time Code for Multiple Antenna Transmission", US Patent No. 6542556, April 2003.

## Patent applications

Currently the number is in between 35 and 45.

**Tomi Männistö**  
ohjelmistotuotannon professori

Teknillisen korkeakoulun rehtori päätti 23.11.2005, että tietotekniikan osastolle ohjelmistoliiketoiminnan ja -tuotannon vastuualueelle sijoitetun professorin viran nro 10297 ala on ohjelmistotuotanto ja opetusalan täsmennys "ohjelmistoprosessit, arkkitehtuurit".

Virkaa hakivat 12.2.2006 päättyneen hakuajan kuluessa FT Jarmo Ahonen, TkT Jyrki Kontio, FT Lea Kutvonen, FT Timo Käkölä, DI Casper Lassenius ja TkT Tomi Männistö.

Informaatiotekniikan osastoryhmän tieteellinen neuvosto pyysi asiantuntijalausunnot hakijoiden kelpoisuudesta ja ansioista PhD Alistair Cockburnilta, professori Ilkka Haikalalta ja professori Philippe Kruchtenilta.

Informaatiotekniikan osastoryhmän tieteellinen neuvosto teki kokouksessaan 22.5.2007 virkaehdotuksen, jossa se asetti ensimmäiselle ehdokassijalle TkT Tomi Männistön, toiselle ehdokassijalle TkT Jyrki Kontion ja kolmannelle ehdokassijalle FT Jarmo Ahosen.

Korkeakoulun hallitus nimitti kokouksessaan 10.12.2007 TkT Tomi Männistön ohjelmistotuotannon professorin virkaan nro 10297 viiden vuoden määräajaksi 1.1.2008 lukien.

# CURRICULUM VITAE

Name: Tomi Matti Männistö

Date of Birth: October 3, 1964, Tampere, Finland

Wife: Satu Männistö, PhD, Adjunct professor (Nutritional epidemiology).

## Education

- 2000 Doctor of Science in Technology, Helsinki University of Technology (TKK), Department of Computer Science and Engineering.
- 1998 Licentiate of Technology with honours, TKK, Department of Computer Science and Engineering.
- 1990 Master of Science, Tampere University of Technology (TUT), Department of Electrical Engineering.

## Work

- 2008–(2012) Professor of Software Engineering, TKK.
- 2005–2007 Professor (pro tem) of Software Engineering, TKK.
- 2004–2005 Professor (pro tem, 50%) of Information Processing Science, TKK.
- 2004–(2009) Adjunct professor (docent) of software and product families and architectures, TKK.
- 2000–2004 Lecturing researcher in software engineering, TKK.
- 2000–2001 Visiting Scientist (for 12 months) at Nokia Research Center, Software Architecture Group, Boston, USA, and Massachusetts Institute of Technology (MIT), Cambridge, USA.
- 2006–(2009) Responsible leader, research project REflex (Tekes).
- 2005–(2008) Responsible leader, research grant “TOSI” (Teknologiateollisuuden 100-vuotissäätiö).
- 2005–2008 Responsible leader, research project subcontracting for Nokia Research Center in ITEA project Trust4All.
- 2005–2007 Responsible leader, research project Svamp with VTT Oulu (Tekes).
- 2005 Responsible leader, research project CORE (Tekes).
- 2004 Responsible leader, industrial research project for Daimler-Chrysler, Germany.
- 2001–2004 Project manager and co-author of the research proposal, research project Sarcous.

2000	Co-author and co-coordinator of the combined research proposal for the UTT (New Technology Paradigm) research programme and co-author, research project UTP (New Technology Platform).
2000	Researcher and co-author of the research proposal, research project Configurable Software Product Families (Academy of Finland).
1991–2000	Researcher, Product Data Management Group, TKK.
1988–1991	Software engineer, Procons Ltd.
1986–1987	Programmer, Laboratory of Mathematic, TUT, assistant in three programming courses, TUT.

## Thesis Supervising

Supervisor for several ongoing PhD theses, one with permission for public defence, supervisor or reviewer for 7 Licentiate theses and supervisor for 30 Master's theses.

## Scientific Refereeing

Acted as a reviewer for the following:

- IEEE Software, Special Issue on Software Architecture
- Artificial Intelligence for Engineering Design, Analysis and Manufacturing
- Computer Aided Design
- Data and Knowledge Engineering
- Journal of Computing and Information Science in Engineering
- Science of Computer Programming.
- Software Practice and Experience.
- Journal of Systems and Software
- Transactions on Software Engineering

## Scientific Program Committee Memberships

2008	The Second International Workshop on Management and Economics of Software Product Lines (MESPUL08).
2008	The Second Workshop on Service-Oriented Architecture and Software Product Lines (SOAPL 2008).
2008	ECAI 2008 Workshop on Configuration Systems.
2008	International Conference on the Quality of Software Architectures (QoSA).
2008	Workshop on Variability Modelling of Software-Intensive Systems (VaMoS).
2007	International Conference on the Quality of Software Architectures (QoSA).
2007	Software and Services Variability Management Workshop (SVM-WS).
2007	Workshop on Variability Modelling of Software-Intensive Systems (VaMoS).
2006	European Conference of Artificial Intelligence (ECAI) Workshop on Configuration.
2006	Software Product Line Conference (SPLC).

2006	International Conference on the Quality of Software Architectures (QoSA).
2005	Software Product Line Conference (SPLC).
2004	The 2nd Groningen workshop on software variability management.
2003	Configuration Workshop of International Conference on Artificial Intelligence (IJCAI).

### Scientific Organizational Activities and Positions of Trust

2006–	Member of the Steering Group of Software and Systems Engineering Graduate School (SoSE).
2004–	Member of IFIP WG 2.10 Software architectures.
2008	Co-Chair, ECAI 2008 Workshop on Configuration Systems.
2007	Chair, Software and Services Variability Management Workshop (SVM-WS).
2005	Member of the Steering Group of Helsinki Graduate School of Computer Science and Engineering (HeCSE).
2005	Session Chair in the Software Product Line Conference (SPLC).
2005	Tutorial Chair of the Working Conference on Software Architectures (WICSA)
2005	Organising Committee member of the Working Conference on Software Architectures (WICSA)
2004	Co-chair, workshop on “Software Variability Management for Product Derivation—Towards Tool Support” in Software Product Line Conference (SPLC).
2002	Member of the Board of TAI research center of TKK.

### Other Professional Activities

2005–2006	In three separate occasions, writing an expert statement for the Espoo Police Department or the Ministry of Education of Finland concerning intellectual property rights of software products.
2002–	Variantum Ltd., Member of the Board and founder. Variantum is a spin-off company from TKK offering product configuration and product data management solutions and tools.

### Pedagogical Education

2007	Program on Higher Education Pedagogy (YOOP), 20 ECTS credits, Helsinki University of Technology.
2006	“Myself as a teacher—Teaching + Learning + Teaching” (03), Helsinki University of Technology (included in YOOP completed in 2007).

## Courses, Lectures and Presentations

Responsible teacher of several courses in software engineering and visiting lecturer in courses including topics, such as software architectures, research methods and product data modelling using the STEP standard at TKK, lecturer in industrial courses and international conferences or workshops.

## Scientific Monographs

Männistö T. A conceptual modelling approach to product families and their evolution. Doctoral thesis. Acta Polytechnica Scandinavica, Mathematics and Computing Series No. 106, Laboratory of Information Processing Science, Department of Computer Science, and Engineering Helsinki University of Technology. 2000.

Männistö T. Towards management of evolution in product configuration data models. Licentiate thesis, Laboratory of Information Processing Science, Department of Computer Science and Engineering, Helsinki University of Technology. 1998.

Männistö T. A Subsystem for the Capacity Planning and Job Scheduling of the Cold Rolling Mill of a Steel Factory. In Finnish. Master's Thesis, Tampere University of Technology, 1990.
