ATM > Price List

The price of ATM data transmission services includes the prices of:

- connection of terminal equipment
- subscription fee for the connection point in the network
- line use service
- lease of the terminal equipment (optional)

The price of the service is established according to:

- the type of connection:
 - CBR
 - VBR1
 - VBR3
- duration of call:
 - indefinite
 - definite
- the kind of traffic:
 - local (connections within the same town)
 - long-distance, depending on the tariff zone (connections ending within the same county or different counties)
- discounts on the duration of use

Other services

- Transfer of subscriber line, single payment, per line: 50% of the connection price
- Change of connection parameters upon the subscriber's request, single payment: 100.00 HRK
- Reconnection (upon disconnection for not paying the bill): 15% of the connection price

• Price of connecting the subscriber's terminal equipment and the monthly subscription

Speed [bit/s]	Price (HRK)	
	ex VAT	inc VAT
• 2 Mbit/s		
– Connection	9,000.00	10,980.00
– Subscription	1,125.00	1,372.50
• 4 Mbit/s		
– Connection	13,500.00	16,470.00
– Subscription	1,875.00	2,287.50
• 8 Mbit/s		
– Connection	18,000.00	21,960.00
– Subscription	3,375.00	4,117.50
• 12 Mbit/s		
– Connection	20,000.00	24,400.00
– Subscription	4,125.00	5,032.50
• 16 Mbit/s		
– Connection	22,000.00	26,840.00
– Subscription	4,875.00	5,947.50
• 34 Mbit/s		
– Connection	25,000.00	30,500.00
– Subscription	5,625.00	6,862.50
• 155 Mbit/s		
– Connection	50,000.00	61,000.00
– Subscription	11,000.00	13,420.00

Data transmission speed in ATM network

is measured as cells per second (cell/sec). One cell contains 53 octets (bytes). The basic parameters for CBR and VBR traffic categories are the following:

- PCR – Peak Cell Rate
- SCR –Sustained Cell Rate
- MBS –Maximum Burst Size

PCR and SCR parameters depend on the desired features of the link, while MBS =96 cells.

• Connection for indefinite period

Monthly:

CBR and VBR1 category of traffic:

Local network	Price (HRK)	
	ex VAT	inc VAT
Speed of 170 cells/sec	450.00	549.00
– add-on for each additional 170 cells/sec (up to the speed of 4,420 cells/sec)	56.00	68.32
Speed of 4,528.00 cells/sec	1,900.00	2,318.00
– add-on for each additional 1370 cells/sec (up to the speed of 79,878 cells/sec)	138.00	168.36
Speed of 80.000.00 cells/sec	9,550.00	11,651.00
Within one county		
Speed of 170 cells/sec	1,800.00	2,196.00
– add-on for each additional 170 cells/sec (up to the speed of 4,420 cells/sec)	225.00	274.50
Speed of 4,528.00 cells/sec	7,650.00	9,333.00
– add-on for each additional 1370 cells/sec (up to the speed of 79,878 cells/sec)	550.00	671.00
Speed of 80.000.00 cells/sec	38,250.00	46,665.00
Between two counties		
Speed of 170 cells/sec	3,050.00	3,721.00
– add-on for each additional 170 cells/sec (up to the speed of 4,420 cells/sec)	380.00	463.60
Speed of 4,528.00 cells/sec	12,900.00	15,738.00
– add-on for each additional 1370 cells/sec (up to the speed of 79,878 cells/sec)	930.00	1,134.60
Speed of 80.000.00 cells/sec	64,600.00	78,812.00

Formula for the calculation of the price of VBR3 traffic category

In the following formula, PCR and SCR are filled with the amounts of PCR from the table.

$$P/S = SCR + 0,25 \times (PCR - SCR)$$

The minimum value allowed for PCR is 2xSCR

The maximum value allowed for PCR is 8xSCR

• **Connection for definite period**

Connection	Price (HRK)	
	ex VAT	inc VAT
From 2 Mbit/s and above:	1,850.00	2,257.00
Subscription and usage		
Formula:		
1. up to 30 days:	$3 \times N \times D/30$	
2. from 30 to 90 days*:	$2 \times N \times D/30$	
N – sum for indefinite period		
D – duration (days)		
* for the first 30 days the tariff 1. is applied and from 30 to 90 days tariff 2.
